

PARIS, EVENTS, LOCAL GROUPS, TIMELINE - 30.11.2019

Promote STEM at a high school forum

Event 30.11.2019

Location Lycée LouiseWeiss – Achères (Fr-78)

WIA-E Paris local group has been invited to promote STEM to a group of 15-year-olds before they choose their further school orientation. It was an opportunity to address young girls, who were hiding at the back of the classroom, to convince them that the STEM field opens up many interesting professional career opportunities for women.
